***Refer to SIS or the Graduate Record for the most current information on course prerequisites.**
The University of Virginia defines “full time” enrollment as a minimum of 12.0 credit hours per semester.

**** 9 total credits of GNUR 9600 are required for degree conferral**

*** Multiple electives are available if the student needs to carry a full-time credit load of 12 credits to be eligible for external funding, military status, or foreign student visa. An up-to-date list of electives can be found here:

<https://community.nursing.virginia.edu/students/registrar/registrars-rx/>

The course must be a graduate-level course, 5000-series or higher.

Each SON course is identified by a 4-digit academic credit nomenclature: the first digit denotes the classroom hours, the second digit denotes the lab hours, the third digit denotes the clinical hours (1 credit = 56 hours), and the fourth digit denotes the total credits earned.

Students are required to enter the correct Plan of Study (POS) into the SIS Planner and review with the academic advisor each semester. Changes to the POS must be approved by the advisor and enrollment in a course outside of the POS is not guaranteed. Note: the term/semester of individual courses is subject to change.
