President's Pen

Dear Beta Kappa Members,
It has been an exciting year for Beta Kappa! As we reflect on our Chapter's many accomplishments, we are grateful to have this opportunity to share that we have a strong chapter with dedicated volunteers and robust scholarship.

This newsletter issue contains highlights of some of the research that our members have presented at national meetings over the past year. We have members who have presented research globally and across the continental United States in some important venues. And we have had students--"Rising Stars"--who have presented their quality improvement studies and research at Sigma conferences.

Our Dean, Dorrie Fontaine, and School of Nursing, was awarded the Inaugural Healthy Work Environment Award for Academic Settings by Sigma in New Orleans in February. President Gina DeGennaro presented with our Dean, the work of the School on healthy work environments. Several graduates and alumni joined and presented posters highlighting their work. Meg Bradshaw, a third year BSN student, presented as a Rising Star on the Wisdom in Nursing course and beginning research.

Please let us know when you are engaged in research and when you present your research at conferences. We would like to recognize your commitment to research in future editions of the newsletter.

In the service of nursing and Beta Kappa,

Gina DeGennaro, DNP, CNS, RN, AOCN, CNL

SUMMER 2019

ANNOUNCEMENTS

Beta Kappa Honors Fontaine's Healthy Work Environment and Compassion Work

Reflecting on over a decade of her leadership, the UVA School of Nursing, Beta Kappa of Sigma International honors Dorrie Fontaine's efforts to cultivate communities of compassion and healthy work environments. Fontaine's commitment to developing a healthy work environment in the School was honored by Sigma this past year through the inaugural 2019 Healthy Work Environment (HWE) Award. Fontaine's compassionate care and HWE work will continue to be modeled and spread by other Sigma societies in Schools of Nursing.
